

Holmes Street Bridge Project & Shelby Farms Greenline Trail

Beginning July 18, 2011 construction will begin to replace an 83 year old structure on Holmes Street in Shelby County. American Reinvestment Recovery Act funds are being used to replace this bridge, which was originally built in 1928. The estimated time line for the re-construction is eight months. This work will cause temporary and intermittent closures to the Shelby Farms Greenline Trail. During the closures, a detour will be in place for trail users. See the map and directions below.

GREENLINE TRAIL DETOUR

Going west, beginning at the Greenline and North Highland Street:

South on North Highland Street,
West on Waynoka Avenue,
South on Holmes Street,
West on Walnut Grove Road, and then
North to Tillman Street to the Greenline

For more information about the project contact Nichole Lawrence, Community Relations Officer at 731-935-0318 or Amy Griffin, Project Supervisor at 901-685-5413
